

“When all of your DME is completely taken care of, and your entire infection prevention and cleaning program is streamlined, you can execute a lot of other patient driven solutions. This is the power of MasVida.”

Gary Blake, CEO
Creative Solutions in Healthcare

Better outcomes begin with better solutions.

From same-day DME guaranteed to online IPC training, we improve the care experience.

We're committed to keeping residents, staff, and families safer and healthier. HQAA certified, MasVida Health Care Solutions (formerly known as JMeds) has served long-term care, skilled nursing facilities, and assisted living facilities for nearly 25-years. Our Durable Medical Equipment program includes our DME Pro+ and DME Platinum with same-day delivery guaranteed in Texas. Plus, our partners receive access to our online MV Portal and know where every piece of equipment is, who it's assigned to, and what it costs every day.

As we all know, the fight against deadly pathogens has never been more important. We're the first and only provider of an industry-approved infection prevention suite including MViP Bronze, MViP Silver, and MViP Gold that educates, empowers, and differentiates your staff's cleaning, disinfection, and infection prevention processes.

MViP is the only end-to-end bundled infection prevention programs including: MViP Train, MViP Bronze, MViP Silver, and MViP Gold.

We offer both basic and advanced DME solution programs including: respiratory, oxygen, wound therapy, and concentrator maintenance.

Concentrator Maintenance

Healthier spaces. Healthier people.

Infection prevention and cleaning solutions that work.

As we all know, the fight against deadly pathogens has never been more important. We're the first and only provider of an industry-approved infection prevention suite including MVIP Bronze, MVIP Silver, and MVIP Gold that educates, empowers, and differentiates your staff's cleaning, disinfection, and infection prevention processes. What's more, as a company committed to sustainability and environmentally responsible products and services, we only recommend safe and green disinfectants that do not contain harmful "quats". Whether in post-acute settings, schools, public transit, or non-profits, you'll find our proprietary MVIP program and options meet or exceed your expectations.
