Better outcomes begin with better solutions. We improve the care experience.

We're committed to keeping environments safer and healthier. HQAA certified, MasVida Health Care Solutions (formerly known as JMeds) has served skilled nursing facilities, rehab facilities, and assisted living facilities for nearly 25-years.

Here's what Gary Blake, Founder and CEO of Creative Solutions in Healthcare, says:

"I would encourage all healthcare owners and executives to set aside their egos for a moment and ask, 'Am I really using the best chemicals and the best equipment in the most effective and efficient way?' Partnering with MasVida, we discovered that where there are efficiencies, there are cost savings. We're able to take care of our residents, employees, and families. We strive to be unparalleled in cleanliness. **MasVida helps us achieve our goals.**"

Our durable medical equipment program includes our DME Pro+ and DME Platinum with same-day delivery guaranteed.

Plus, our partners receive access to our online MV Portal and know where every piece of equipment is, who it's assigned to, and what it costs every day. Our working family is dedicated to detail and relentless in our pursuit to provide the best solutions and help our customers provide superior patient outcomes while closely managing cost.

As we all know, the fight against deadly pathogens has never been more important. We're the first and only provider of an industry-approved infection prevention suite including MViP Bronze, MViP Silver, and MViP Gold that educates, empowers, and differentiates your staff's cleaning, disinfection, and infection prevention processes.

From guaranteed same-day DME delivery to a comprehensive and advanced cleaning and disinfecting approach, we deliver effective, safer, and healthier solutions.

Please take a moment to review our resources, visit us online at MasVidaHealth.com, for a complimentary facility evaluation and cost savings analysis.

Best Regards,

Joshua Robertson
