

Delivering Comfortable and More Effective Wound Care for Your Residents

A Partnership that Promotes Better Wound Healing in Less Time

This new partnership can improve your clinical outcomes, facilitate timely discharges to increase referral source partnerships, reduce re-admissions, and provide an economical bundled solution to optimize revenue opportunities for your facility.

Clinical Advantage

Negative pressure wound therapy (NPWT) is used to heal a wide variety of complex wounds. Our team provides clinical oversight, managing NPWT utilization to increase outcomes and reduce costs.

Community Advantage

NPWT systems allow patients to be discharged from the hospital with the NPWT pump, strengthening the partnership with referral relationships. The patient and their families are more comfortable, enhancing community value and patient quality of life.

Economic Advantage

Our partnership offers a bundled flat fee or PPD rate. The enhanced clinical support and training reduces consumable waste, streamlines dressing changes to decrease labor cost, and with additional support coupled with the dedicated NPWT portal, reduces utilization days.

We offer same-day delivery in Texas and next day shipping nation-wide.

Same-day Delivery Guaranteed.

Never worry about when your medical equipment will arrive. You'll never have to delay a hospital discharge or turn a patient away. We deliver all of our equipment same-day, guaranteed.

Shipping Next Day + Onsite Consignment Pump

Never worry about delaying or missing a referral again. You will always get the pump when you need it most. Plus, you will always have a consignment pump on-hand for emergency referrals.
