

## Concentrator Maintenance

Oxygen concentrators require regular maintenance to ensure they operate and perform correctly. We offer routine preventative maintenance, detailed equipment logs, and concentrator replacements.

### Maintenance Program

- ✓ Quarterly filter checks.
- ✓ Quarterly FiO2 and flow rate measurement with documentation.
- ✓ HEPA Bacteria Filters changed per manufacturer recommendations (typically twice annually).
- ✓ Manufacture manuals offered digitally.
- ✓ Maintenance logs for guaranteed up-to-date and compliance standards per state regulations.

**The program also includes loaner concentrators at no additional costs if:**

- ✓ You agree to send your broken unit off for repairs.
- ✓ You own the unit or rent it from MasVida.

### Rental Program

- ✓ 5 Liter High Flow Concentrator
- ✓ 10 Liter High Flow Concentrator

### Program Benefits

- ✓ Stay in compliance and decrease risk of deficiencies.
- ✓ Keep residents safe and comfortable with adequate FiO2 and flow rates.

### Discounts Included

- ✓ Discounted repair costs.
- ✓ Discounted rates for the purchase of new concentrators.
