

OneSource Healthcare Equipment Portal

Never worry about your medical equipment again.

As a service to our customers, OneSource Healthcare Equipment Online Portal makes real-time equipment management a reality, easier, convenient, and better.

It becomes your one-stop shop dashboard to get proactive insights and services right from the comfort of your desk-top. Our partners with multiple facilities can access all the information needed for each facility in a single, compiled, and online location. OneSource places all necessary information at the touch of your fingers. Real-time interface compiles all billing, rentals, requests, online ordering, request pick-ups, service calls, and more in a single, easily accessible location. Review your account according to your specific needs and stay informed on the status of your equipment by receiving notifications, insights, and personalized reports. Plus, you can connect with your OneSource team, request maintenance, and track service from start to finish with one convenient point of contact.

Easy Connect

Our easy registration gives you immediate access to your dashboard—allowing you to see all rentals, billing, and documentation at a glance.

Better Operational Efficiency

Never worry about your medical equipment sitting around unused. In our easily viewable dashboard you can see every piece of equipment and who it is assigned to.

Improves Your Financial Performance

With our portal you'll be able to avoid unexpected costs, maintain revenue, and maximize your cost per patient.
