

Symmetry Resilient Dispenser

Facilities face unique safety challenges given the variety of users they serve. Symmetry Resilient dispensers provide hand hygiene solutions that maximize user safety while supporting hand hygiene compliance protocols. The Resilient dispenser's user-driven design also aligns with the look of traditional plastic dispensers.

DISPENSER FEATURES

Flush-Mount Compact Dispenser

Increased perimeter area for caulking edge to maximize safety.

Heavy-Duty Protective Enclosure

Made of strong yet lightweight diecast aluminum. Resists impact from any direction.

Robust barrel key locking system and anti-pry edges prevents unauthorized access to internal structure and chemistry.

Optimal Dispenser Safety

Pitched dispenser lever for effective hand hygiene product dispensing where user safety is critical.

No combustible sources. Battery free to eliminate combustible risk.

Misuse Prevention

Deter misapplication with sloped surface, soft corners and angles, pitched lever, and patient access prevention.
