

Facility Hygiene: Hand Hygiene Solutions

Hand Hygiene Solutions

Hand Hygiene Products People Want to Use

Hand hygiene compliance is a major factor in Healthcare-Associated Infections (HAIs), but it is also one of the easiest practices to improve. Altra dispensers have large sight windows for checking product levels, can come with hidden locks and keys, and may be customized with your logo, message, and color.

Why Choose Our Hand Hygiene Products

Less Likely to Contribute to Dry Hands

Leave no stick residue

High quality and low-cost products

Packaging is BPA-free

Hand Hygiene Assessment

Reduce Costs. Improve Care.

Reducing costs while improving care in today's ever-changing market is paramount. How do we help you reduce costs without sacrificing patient/resident satisfaction? We provide a OneSource Solution – standardized and bundled contracts from one source that reduces overhead, eliminate variability, improve quality and positively impact resident satisfaction.

- ✓ Lower Your Infection Rates
- ✓ Find Ways to Reduce Readmissions
- ✓ Identify Ways to Provide Safer Care

Altra Hand Wash and Sanitizing Dispensers

Altra Foaming Hand Wash and Hand Sanitizers

Our line of foaming and waterless hand sanitizer and hand washes reduce common disease causing bacteria. It is formulated with 62% w/w (70% v/v) ethyl alcohol, aloe, and vitamin E leaving no residue behind. Altra products have a mild, sweet fragrance (Fragrance-free available). It is ideal for healthcare. All Altra products are available in hermetically sealed packages that are contaminate-free and allow for 99% product evacuation.

- ✓ Keeps hands dry
- ✓ Dries quickly
- ✓ No sticky residue

ABMS: Altra Behavior Modification

Transforming the way people think about hand hygiene.

Altra utilizes behavioral science to drive hand hygiene practices. As a value-added component of our program, the ABMS is a set of unique placards and signs with messages designed to inspire and maximize hand hygiene practices.

5 Moments for Hand Hygiene

The 5 Moments for Hand Hygiene approach defines the key moments when healthcare workers should perform hand hygiene. This evidence-based, field-tested, user-centered approach is designed to be easy to learn, logical and applicable in a wide range of settings.
